

T³ - Technion Technology Transfer

T³ is the technology transfer office of Technion - Israel Institute of Technology. Entrepreneurship and commercialization are at the core of Technion innovation. As part of the Technion R&D Foundation (TRDF), T³ is a one-stop-shop for innovation and the expansion of Technion as a global hub for entrepreneurship startups and commercialization.

At T³, we commercialize cutting edge technologies developed by Technion researchers, students and alumni. T³'s mission is to facilitate and support the transformation of scientific discoveries into applied solutions.

T³'s activities include:

- Evaluation of Technion inventions.
- Protection and maintenance of IP.
- Facilitation of government R&D incentive program grants.
- Negotiation and approval of the IP and business aspects of industry agreements.
- Licensing Technion technologies.
- Incorporation of spin-off companies based on Technion IP.
- Investment in Technion-affiliated companies

T³, takes a dynamic and flexible approach to commercialization in which deal structures are customized to real-time needs and long-term objectives; there is no "one size fits all".

T³'s main commercialization avenues include:

- Licensing of Technion intellectual property (IP) to companies
- Incorporation of startups based on Technion IP within the framework of incubators and seed investments
