

*Fostering creative, forward thinking leaders
in academia and in public life*

Two-Year US Post-Doctoral Fellows - To Israel

The United States-Israel Educational Foundation (USIEF) will offer 8 fellowships in all academic disciplines to high-achieving American post-doctoral researchers at Israeli Universities during the course of academic years 2019-2020 and 2020-2021. Academic excellence is the primary criteria for the evaluation of candidates.

This is a two year program - \$35,000 award per academic year.

Fulbright fellows enjoy a unique program managed by the Fulbright commission for Israel including:

- Visa administration assistance
- Orientation day in Israel
- Cultural activities - events, holidays, local trips and academic enrichment
- Joining the local and global Fulbright community and network

The application deadline for Fellowships beginning in 2019-20 is August 1, 2018

The United States-Israel Educational Foundation (USIEF) was established in 1956 by the governments of the United States and Israel. Every year, USIEF identifies the most prominent and talented scholars in Israel and in the US. The connections between the researchers and their hosts are the basis for long-term cooperation.
